This is the cover. And the art for the actual CD. The title of the CD is "Dear Be a Doll". The artist is Carolyn Curry

Inside left :

“My own songs on the album, humorous though some may be, are all about those most difficult to love. The ex-, unrequited loves, estranged friends, and loved ones who have passed. Letting go may have been a kindness to them or myself, or perhaps both, but I’ve never regretted caring for any of them. I’ve learned so much from you, these songs are for you.

A special thanks to Wil and Luke for their generous support in the studio. I’m fortunate to have such skilled and talented friends.

Finally, I’d like to thank my family for instilling the joys of music in me and for supporting my musical endeavours time after time. I wouldn’t be where I am without you.
