

BRIEF INFOGRAPHIC AND ICONS DESIGN

PART 1 – COMPANY INFOGRAPHIC

We'd like to get an effective and customized infographic with the intention of collect and show in the most concrete and best way our company's facts and figures or something of similar. It is going to be used on all our marketing supports as the website (dynamic version on wordpress framework), corporate and/or product catalogue (digital or paper supports), company presentations (digital). You can find below the "facts and numbers" to list in the infographic and some corporate samples of infographics to keep in mind in running of the project. We want to follow our brand identity (logo, fonts and colors) and we appreciate a modern style but concrete and especially clear for the user who will see it (not too much abstractive style). We would like to get a compacted infographics but with the possibility to use part of them with the related informations, in practise a modular infographics which will be used whole or part of them depending of our needs. We need to get all possible graphic supports as vectorial, pdf, and others.
