

# E-learning

# Concept

Provide best learning experience to become a Software Architect

Target: Individuals and companies who want their employees to level up their skills in latest programming trends and also in cloud computing with primary focus on security

---

# Competitors(in different languages)

They are not really competitors but we were inspired by the following services

Udemy (<https://www.udemy.com/>)

ACloudGuru (<https://acloud.guru/>)

Laracasts (<https://laracasts.com/>)

# Pricing

Will offer subscriptions as well as individual courses

Offers three subscription models

Programming Subscription

Cloud Subscription

All in One Subscription

Training courses for national certification are one time payment courses

---

# Top Page

I like the following sites

<https://acloud.guru/>

<https://laracasts.com/>

The language is in Japanese but please take a look at the following site

<https://www.sat-co.info/>

---

# Learning Page

A page that features the video

It also needs to show where they are in their learning progress.

The structure of Elearning course is

Course has Sections, Sections have lessons(one lesson has one video and possibly some notes and references)

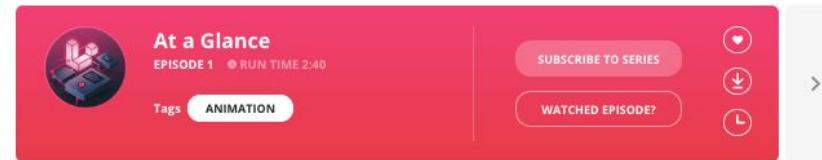

---

The next pages show Laracasts  
Learning page

	<b>Laravel 6 From Scratch</b>
SERIES	0 0 0 44 Lessons 0 03:53 hrs
Section 1 Prerequisites	
01	<a href="#">At a Glance</a> EPISODE 1 0 2:40
02	<a href="#">Install PHP, MySQL and Compo...</a> EPISODE 2 0 3:32
