Below is the desired image 1 on black background, but should have gold effect like image 2

However, I want the Image 1 to be printed to have gold effects as close as possible to image 2

Image 2 (https://pin.it/3GRjRF5)
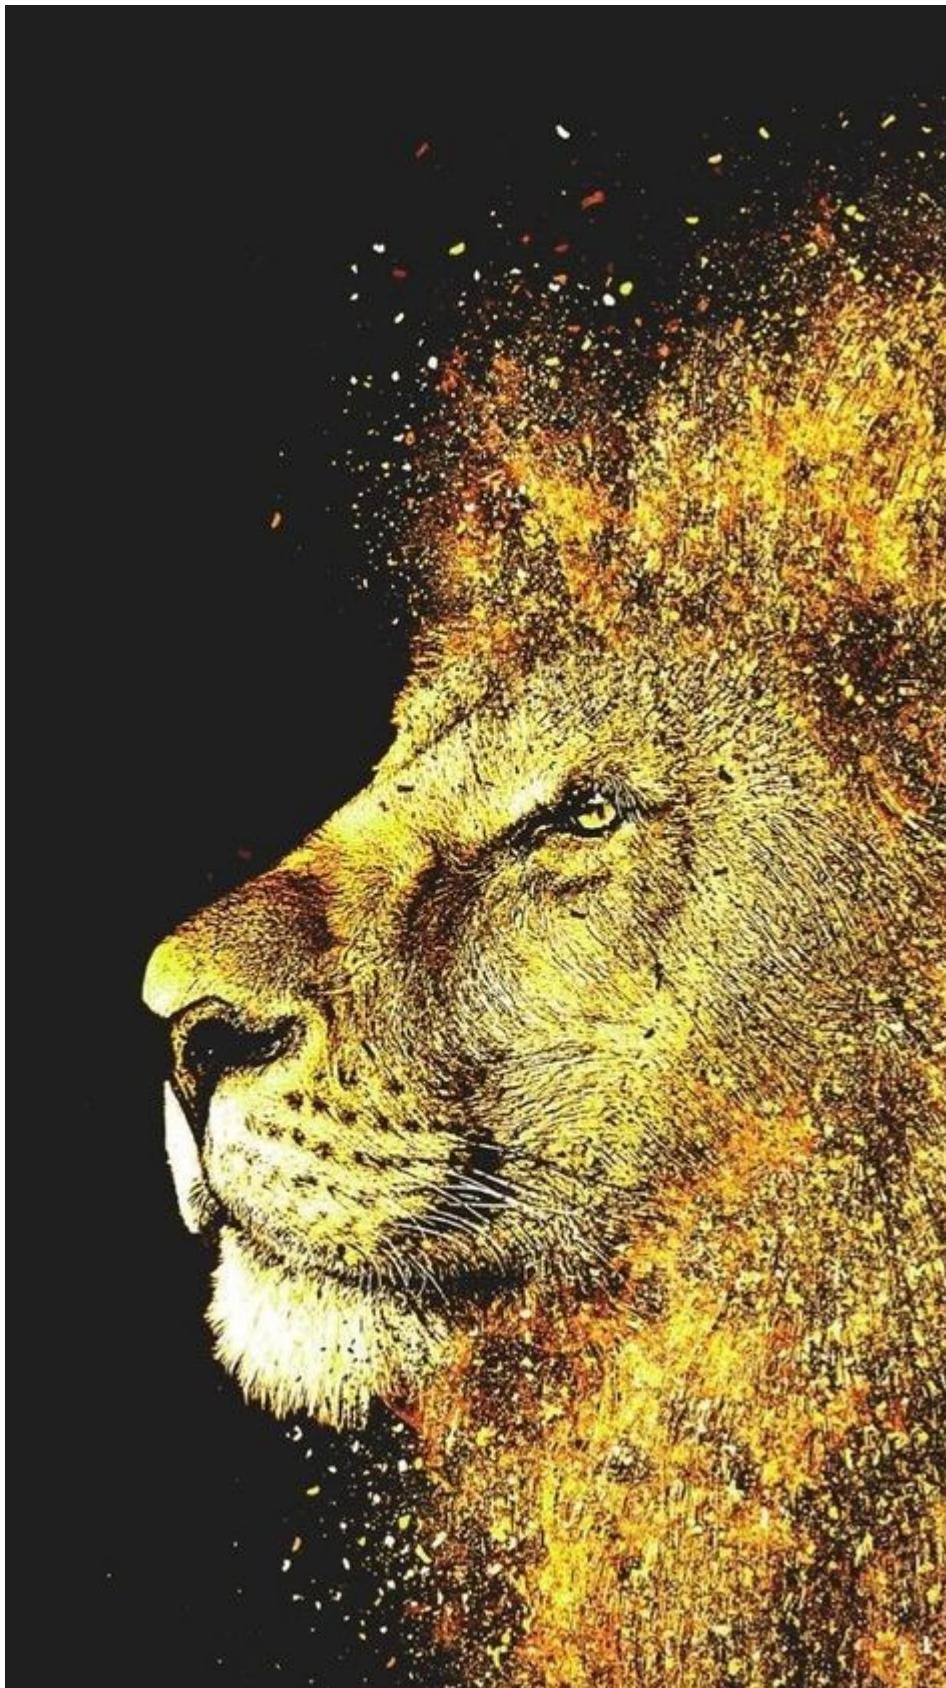

See below page for desired image with required text and instruction

It doesn't matter who or what may come against you,
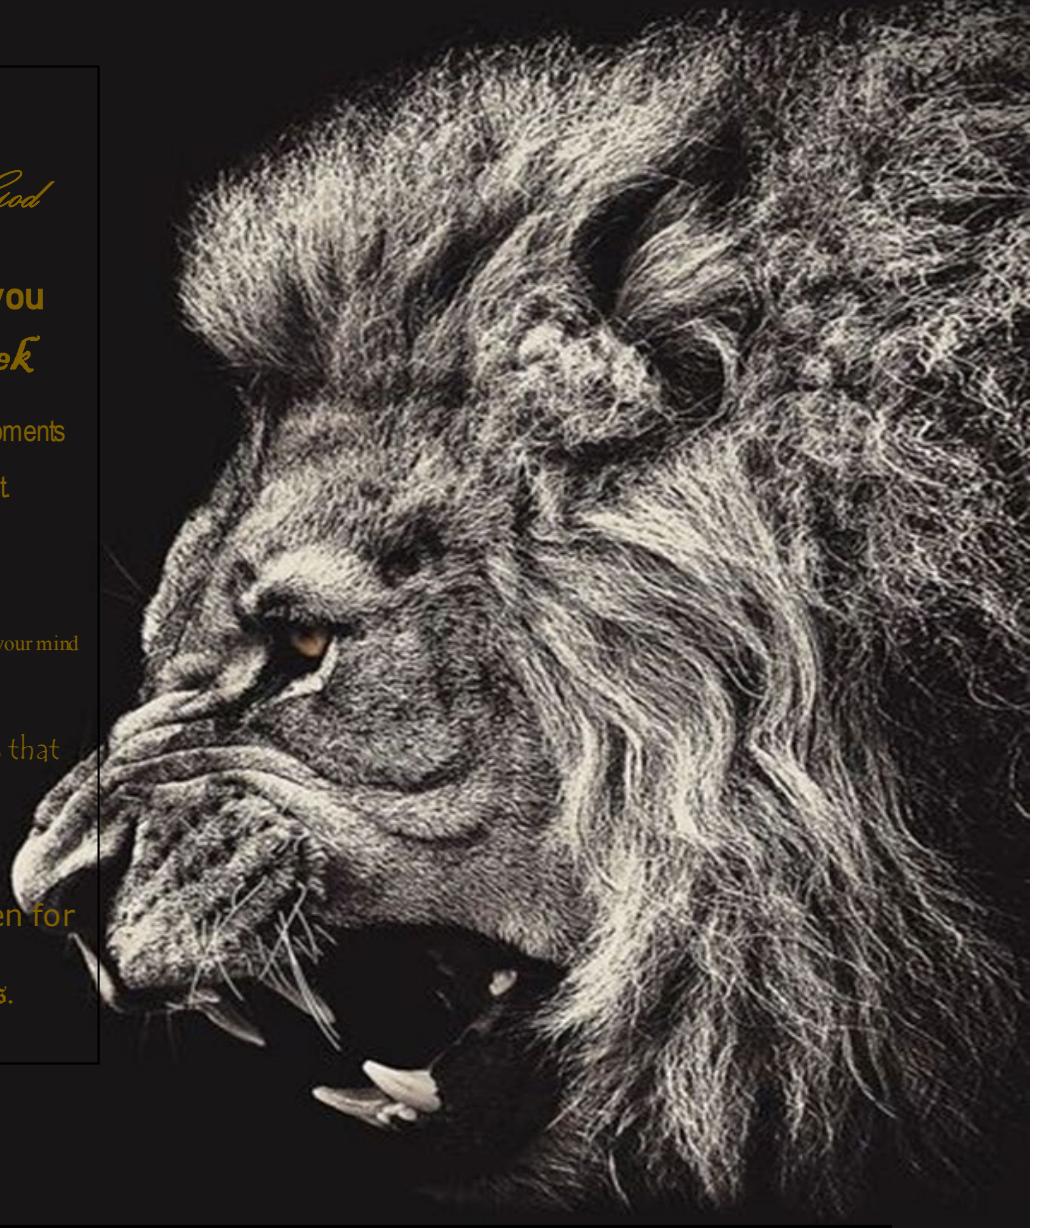

FOR GOD IS WITH YOU

HE has made you more than a conqueror.

Almighty God will come through for you *when you seek Him* in your moments of trouble and unrest.

May God calm the restlessness of your mind *And* still the thoughts that worry you.

DOORS will open for you, in the most unlikeliest of places.

When you go through deep waters, He will be with you.

Never will He leave you, Never will He forsake you.

Amen.

. Gold text should be carefully placed around the picture in the black background.

. I'm open to the suggestions about the font styles, but I want to separate the statements by using different font styles as shown.

. Landscape

. I intend to mount and frame the picture, in a large frame to be hung on the wall.
