

Hi, thanks for helping with my logo. Here are the details of my business.

My business name is "Enders Plumbing and Gas" but I want to use my short name "EPG" for my logo. The work I carry out is excavation, plumbing and gas.

I really like the logo I have referred to in this order (below). I really like the excavation symbol/picture after JPE and would be interested to see those letters replaced with EPG. Also open to other designs but I definitely want that excavation picture reference in the logo. In smaller writing underneath, I would like my business full name (Enders Plumbing & Gas) and my mobile number which is 04 222 333 86. This writing needs to be large enough to read obviously. Underneath the 2 lines of smaller writing, I would like the following dot points:

- Excavation
- Plumbing
- Gas

The overall reading will be as below:

EPG

Enders Plumbing & Gas

04 222 333 86

- Excavation
- Plumbing
- Gas

I like the exact colours used in the logo (blue and silver) however I would also like to see some white incorporated in there also. I drive a black vehicle, so it is important the logo will look good against black.

I am open to other ideas about design and colours of the logo. I want it to look modern and catchy, and to stand out. The logo will be eventually used for clothing, vehicle, business cards, etc.

Thanks for your help and I look forward to seeing your designs!

Cheers,
Aaron
