

Homepage

- For consistency, please replace the homepage navigation with this one (please make the nav the same for all pages):

- Please move logo over (feel free to enlarge it a bit if it looks nice!)
- When the homepage page loads, the logo “appears” in. Can it be a static part of the banner image so it loads all at once/does not move?

Who I Am

Please remove “Who I Am” wording and “About Stacey” module from the homepage (But please keep it on “Who I Am” page)

About Stacey

Experience

Content Manager

Web Product

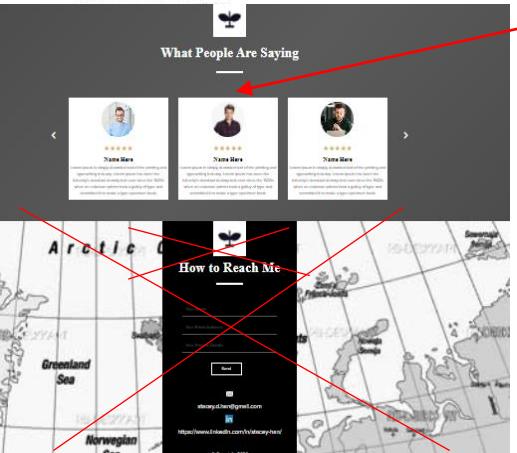

Please move “Experience” module to “Who I Am” page

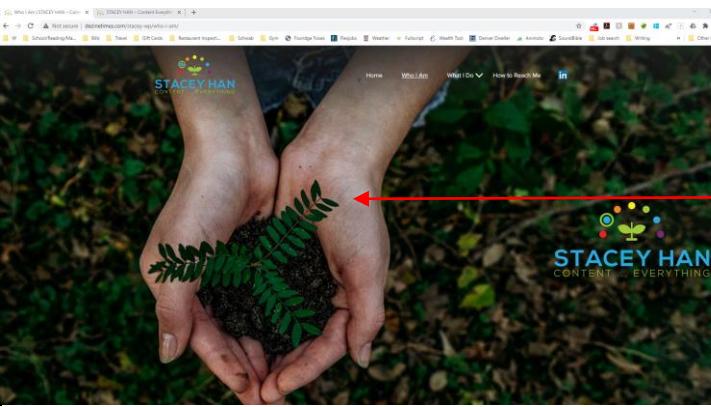

Please update to make carousel not animated/not automatic moving

What People Are Saying

How to Reach Me

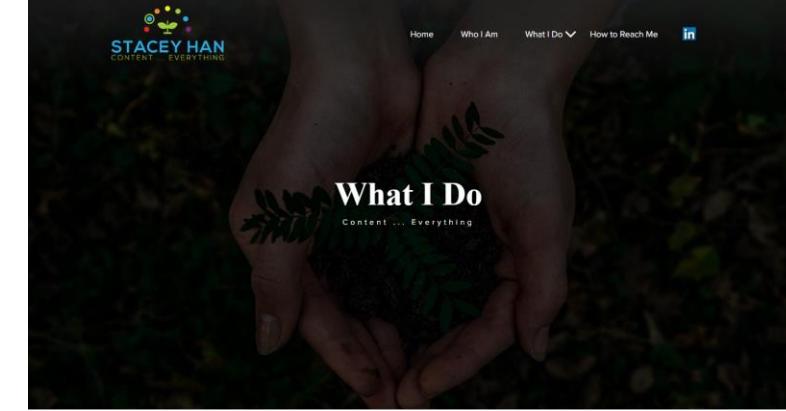

Please remove “How to reach me” module from all pages except “How to Reach Me”

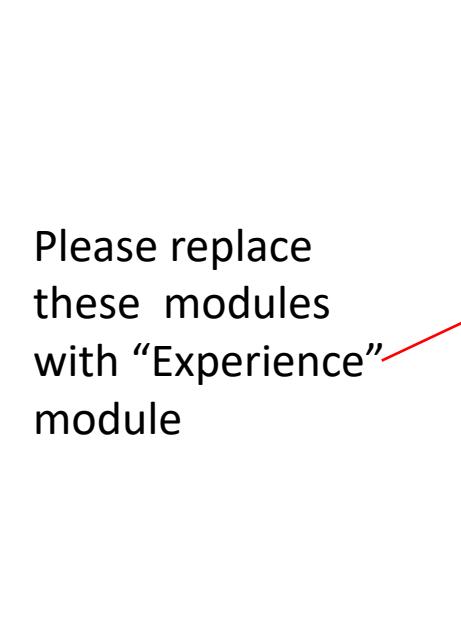

Who I Am page

Please change banner to look like “What I Do” style:

Please replace these modules with “Experience” module

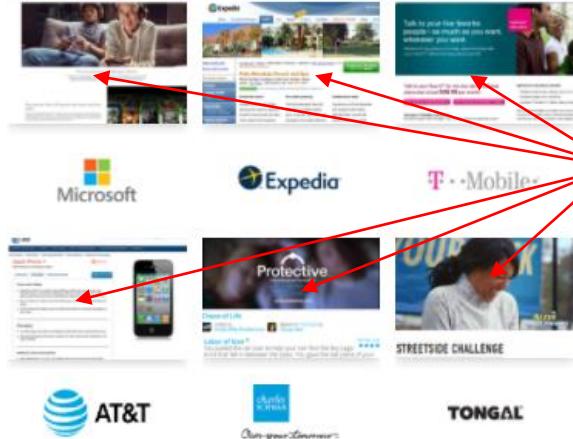

Please change “Web Product 2” to “Web Producer 2”

What I Do > By Brand page

When you click on each of these, I will need to show more portfolio images. Can the popouts each be carousels?

Please remove modules
