

## **Website pages wording – Source Tank**

**Home page** (we saw that you designed 3 pages on this section for users to flip over so here below are the contents we want to show on each of them)

- 1) Let us handle all overseas productions for you
- 2) Over 600 solid manufacturers supplying a vast range of products
- 3) Quality Control throughout the entire production process

### **Post-Covid 19 sourcing and production management page**

-2020 has been difficult and challenging for all of us, especially for those who work, travel and trade worldwide, but that doesn't mean your business has to stop. With all the travel restrictions and increasing global trading tensions, we will assist you to manage your overseas sourcing and production business and keep your business thriving.

### **About us page**

-We are a professional team with mature global sourcing and trading experience. The owner of Source Tank Mr. Scott Collier and Ms. Xiang Li have lived in Italy for over 10 years and Xiang has obtained abundant experiences on manufacturing and global trading of fashion apparel and accessories. We travel frequently and regularly to visit factories and manage productions by ourselves. On top of it we also have branch office in Hong Kong and solid local resources around all areas in China, India and other Asian countries that will assist us on sourcing and timely problem solving. Differ from other competitors, we have the best Quality Control team that is able to inspect all kinds of products. Thanks to all our local and global collaborators, we can guarantee that every single delivery from us is prompt and reliable. Our working flow is: receive inquiry->start sourcing-> give price and delivery date on inquired products -> arrange samples -> deliver Pre-production sample-> kick-off production->arrange inspection through the whole production-> (if need) arrange shipment.

**Product category page** (we reorganized a little bit about the product category, it doesn't means you have to show every single of them, for example for towels,

bedding and tablecloths I'm sure you will find a single icon to show three of them all together. Having said that you can combine or reorganize each single items just make sure that the icons you use will cover all the products here below)

- Textile

  - Clothing

  - Underwear

  - Sport wears
