

## CD/DVD Face Label

- Please supply a TIFF or PDF file for printing.  
EPS files are also acceptable as long as any text is converted to curves/paths.
- Please provide artwork at a minimum resolution of 300 dpi in a CMYK format.
- Include a 5mm bleed to facilitate the trimming process.
- DO NOT cut out the centre hole in your graphics; just mark the centre of your design with a small cross and leave it filled. Contact our staff if you need information about the centre hole size for your design, as it may vary depending on the print process.
- When possible, please provide a colour proof copy of your design and list any PMS colours that need matching.
