WYNWOOD

While most people looked at Wynwood as a stagnant warehouse and industrial district, Goldman Properties saw a blank canvas in which it could incorporate art, culture and hospitality while catering to the business needs of the creative entrepreneur. Today, Wynwood is an internationally recognized destination and the home to over 70 art galleries, unique food and beverage establishments, and countless creative businesses—and we are just getting started!

The Walentas Family

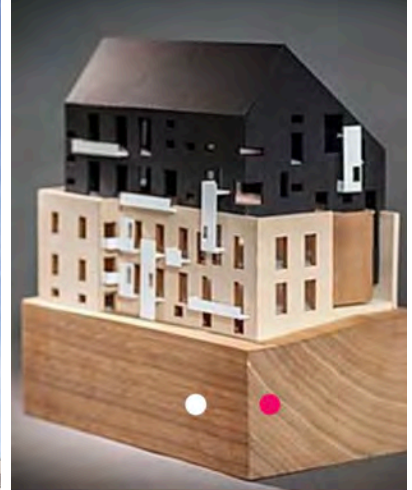

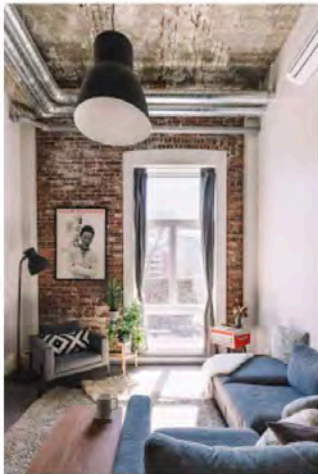

When David Walentas founded Two Trees in 1968, he was immediately inspired by the city's potential. He saw a blank canvas in which he could incorporate art, culture and hospitality while catering to the business needs of the creative entrepreneur. Today, Two Trees is an internationally recognized destination and the home to over 70 art galleries, unique food and beverage establishments, and countless creative businesses—and we are just getting started!

Successful urban development is about mixed-use, responsible, long term growth.

Two Trees has a long track record of supporting creative and community-based tenants, integrating affordable housing into market-rate development and engaging in public-private partnerships to fund and construct neighborhood infrastructure and amenities such as schools, parks and cultural spaces. We feel that we have a civic responsibility to contribute to the prosperity of the neighborhoods where we develop and that ultimately, these endeavors add value to our assets. As long-term property owners, we invest in community amenities that may not have immediate financial returns, but add to the vitality and sustainability of the neighborhood over time.
