We are in need of a new logo design for our new company called Leadbull.

We are a lead generation company, working in the world of affiliation, online advertising, and TECH. We help companies and product owners to reach their objectives, through online advertising, performance marketing, and our lead generation expertise.

We would like to see simple to moderately complex logos, using colors like grey, red, black, etc. But, we don't want the logo to be too colorful. The final design should communicate strength, success, dynamics, and growth.

Our target group are Affiliates, Advertisers, Online Marketers and product owners.

We would like to see great-quality logos on different backgrounds (white and dark). The logo should be referring to the name too (Leadbull), perhaps a pair of horns like a "bull" would be a nice addition.
