"Armando and his team did an awesome job at our wedding in May. Everyone had a great time and danced the entire night! It was such a fun and lively night, that I slipped and tore ligaments in my ankle and kept dancing on it to not miss the party! We would recommend Cloud 9 to any of our friends and family looking for a good time!"

"We forgot to get a DJ for my sons graduation party, and I called Cloud 9 Entertainment. Within 23 hours they were there and set up. They did such an incredible job so many people are asking for their contact information. Even though I had 23 hours to get a DJ he did not try to rip me off. He was more than reasonably priced and even discounted the photo booth which is absolutely incredible. People had so much fun with just to make the party that much more special. I would recommend him in a heartbeat!"

"DJ Malo and his staff are outstanding. My wife and I hired Cloud 9 Entertainment

for our wedding and I can't speak highly enough for the service provided. From start to finish every song was outstanding and our guests had so much fun. The MC for our entrances, dances with our parents, and our first dance are memories we will never forget. If you are looking for a perfect mix of professionalism and a night you won't forget you're in the right place. I have recommended these gentleman to everyone I know. Thanks for making our wedding perfect!"
