

Logo – I would like something like this>

lovecats  hotsprings

lovecats 
hotsprings

Requirements:

- “lovecats” all one word, lower case
- “hotsprings” all one word, lower case
- A heart with some type of cat motif (see the “Please avoid this” note below); the heart could be oriented / portrayed differently than what is shown here
- The cat motif would ideally be embedded in the heart
- I like a font similar to the one shown; other options are welcome too
- The font / logo would ideally be all one color (a dark greenish blue) and there would ideally also be a white version for use on a dark background

Please avoid this:

- Please do not put the text together, such as shown here because the word “shot” emerges

 **lovecatshot**springs

control populations and increase care of community cats in Hot Springs

Mission

Provide support to community cats and their caregivers:

- Enable trap, spay and neutering activities
- Help cats find habitats, homes, food sources, adoptions or care
- Build community understanding, tolerance and love of community cats
- Connect with other related caregivers
- Influence relevant municipal codes

Activities

- Trapping
- Feeding
- Fostering
- Adoption
- Education
- Communication

Driven by

- Cats in need
- Volunteers
- PetFinder profiles
- Support for vet care, cat food and supplies
