

I want to keep the same font style as in this photo

On the top lettering I want it to say JFK on the Top

On the Bottom text I want it to say Intel Dept or  
Intelligence Dept

This is really close to looking like a PT  
boat, but it has some things that are  
wrong with it. The arrow for instance  
is pointing out a radar that is not on the  
boats from WWII.

PT 109 did not have a railing  
like this boat, pictures  
following depict what it  
looked like.

This is PT 105, which is exactly like 109 which JFK was on.

This is an artist rendering of PT 109, which is exactly like 109 which JFK was on.
