

We are looking to design a dual sport and adventure bike ride T-shirt for a large upcoming event. In this kind of style but with color and not in a circle It would just be a scene on the back of the shirt that would take up a lot of room.

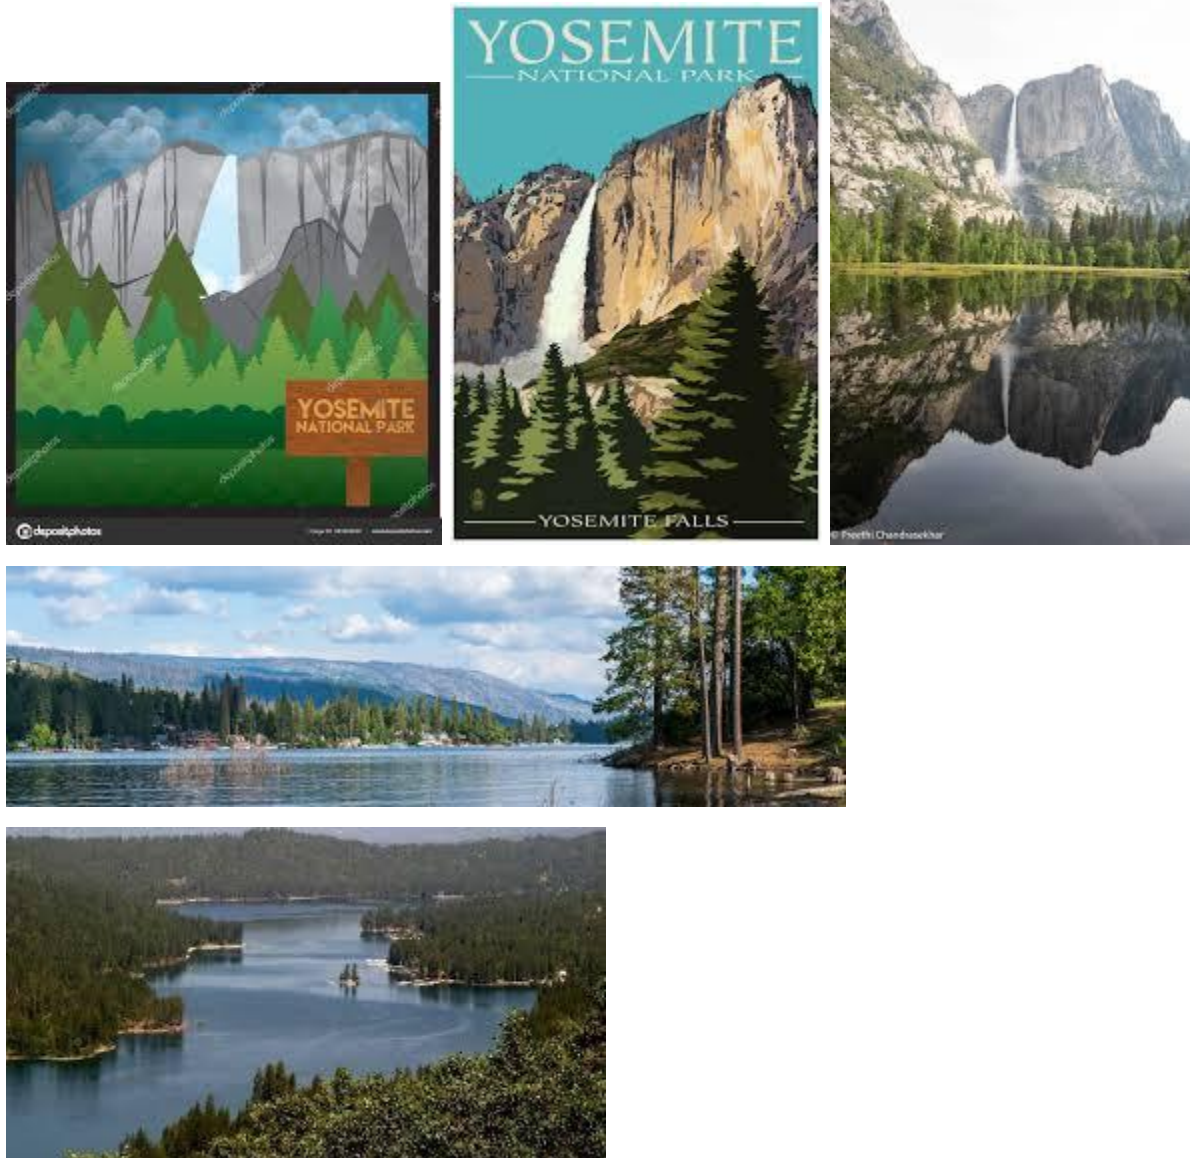

Bass Lake would be in the middle and the Yosemite mountains like Half Dome would be the big mountains in the back. The road to the right could have some adventure bikes on it. Somewhere (maybe on the left) some Dual Sport bikes climbing hills, rocks, dirt trails, etc. Do not need the empty big bike that is in front of this picture.

Some flags or waypoints along the way pointing out some local spots in the mountains here.

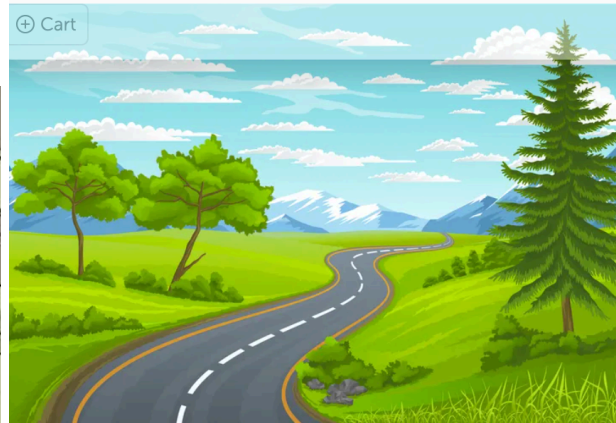

I have shown some of examples of each of the above below not to include these specific ones but just as an idea of what I am kind of referring to.

ex. Yosemite and Bass Lake

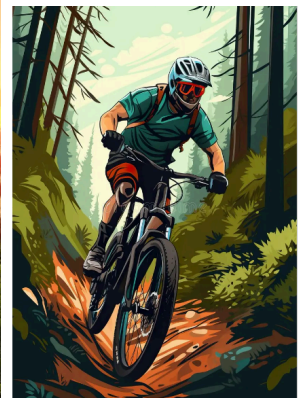

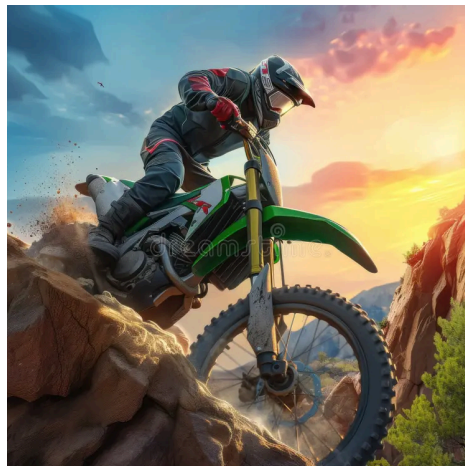

It is a ride so maybe a rudimentary trail or road system going in and around the whole scene.

We want to incorporate dual sport bikes on the shirt as well as adventure bikes. Maybe the adventure bikes riding on a scenic road on one side of the lake and the dual sport bikes climbing something a bit more difficult, rocky in the mountains on trails on the other side of the lake. None of these have to be to scale as then you wouldn't be able to see the bikes

ex. trails but these are not dual sport bikes

these are dual sport bikes

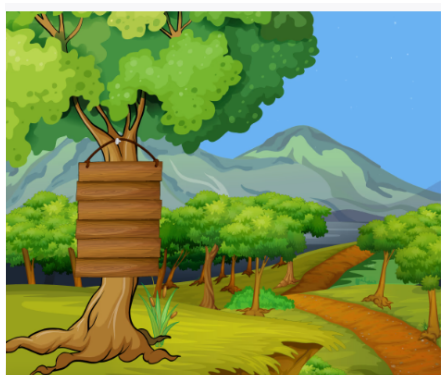

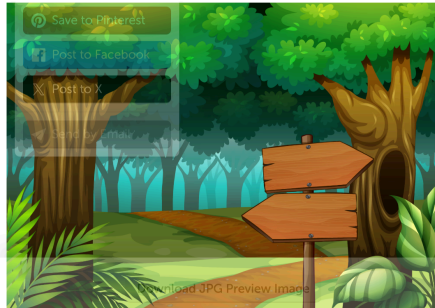

examples of adventure bike

If possible, we would like to see some flags or direction markers with some local landmark names popping up around the scene.

1. Bass Lake
2. Yosemite
3. Oakhurst
4. Jones Store (above Bass Lake)
5. Mammoth Pools NE of Bass Lake

This scene would go on the back of the shirt along with the words in large fancy letters:

Stewards of the Sierra National Forest
14th Annual DS and ADV Bike Ride

The title could be separated, in two half circles, on top, on bottom, it does not matter

Our logo on the top front left of the shirt where a shirt pocket would be

Files need to be in Vector
