# FARONICS CLOUD DEEP FREEZE

Reboot to Restore... and so much more

# Award winning Deep Freeze functionality is now available on the cloud.

Faronics Cloud Deep Freeze is a suite of products offered as a Software-as-a-Service (SaaS). It takes computer management, data protection, asset administration and power management to the next level. Now be in control of your IT assets, anytime and anywhere.

Faronics Cloud Deep Freeze provides one console to **Secure, Update** and **Manage** your computers

### Simple Web-based Console
Simple, yet powerful console that can be accessed anytime from anywhere.

### Live Actions
Perform on-demand actions using a web browser or from the convenience of a mobile phone.

### Zero Hardware Required
The hosted solution requires zero hardware investment, while ensuring high availability.

### Rapid Deployment
Centrally deploy and manage computers within minutes using the built-in Deployment Utility.

### Central Console for Windows & Mac
Manage Windows and Mac editions from a single platform.

### Layered Security
Get comprehensive protection for airtight defense against threats using multi-layer protection.

### Unified Control Center
Centralize and streamline management of computers, policies and deployment across different locations.

## Did You Know?
**70%** of businesses are either using or investigating cloud computing solutions.

- AMD

"
Faronics Cloud Deep Freeze has been vital to our environment and my team could not do without it. I have and would recommend it to everyone. At the end of the day, our investment has been very worth it and a great decision.

- Gilchrist County School District

Faronics

# Key Features

**Web-based Console**
Simple web-based console offers the power of cloud with no investment in expensive hardware.

**Mobile App**
Mobile app for iOS and Android to Freeze, Thaw and do more with your mobile phone.

**Centralized Deployment**
Deploy and manage computers within minutes from a single location using Deployment Utility.

**User Role Management**
Provide granular rights to your users. Assign them designated computer groups and physical sites.

**Multi-Site Management**
Centrally manage all consoles across different locations using a single login.

**Remote Connect**
RDP or VNC into any workstation.

**Policy Orchestration**
Centralize and streamline management of policy creation, deployment and management across workstations.

**Deep Freeze**
Patented reboot to restore solution available in a cloud based platform.

**Usage Stats**
Gain control of your IT asset inventory through intelligent reports and dynamic widgets to make smart IT decisions.

**Software Updater**
Automatically install and update 75+ popular products across all computers including those protected by Deep Freeze.

**Application Whitelisting**
Stop threats before they start using the ultimate application lockdown software based on hash value, digital signature and publishers.

**Desktop Lockdown**
Say goodbye to GPOs. Customize the configuration of your computer to perform only the functions you need and prevent any unauthorized usage.

**Power Management**
Intelligent Power Management with advanced monitoring and smart energy management without disrupting IT tasks or end users.

**Imaging**
Create custom images with granular install settings, and easily push them out. Supports PXE booting.

**Anti-Virus**
Comprehensive protection with a combination of an award winning Antivirus, Anti-Spyware, Firewall and Web Filter.

**Inventory**
All the information you need about your hardware on one live page.

**Ticketing**
Allow users to submit tickets from the Windows taskbar with a customisable popup. Manage tickets easily from the cloud.

---

**Did You Know?**
Cloud Services have a lower total cost of ownership (TCO) and do not require large capital investment for licenses or support infrastructure.
