Faronics Insight

CLASSROOM TECHNOLOGY THAT ENHANCES THE **LEARNING** **EXPERIENCE**

Empower Learning Through Insight

The ultimate solution for modern educators. Control, collaborate, and assess with precision in a seamless, high-fidelity digital environment.

Control

Screen Monitoring

View all student screens in real-time thumbnails. Identify off-task behaviour instantly.

Web & App Blocking

Restrict access to specific websites and applications to keep students focused on the lesson.

Blank Screens

Instantly blank student screens and lock keyboards/mice to direct attention to the front of the room.

Collaborate

Screen Sharing

Broadcast the teacher's screen to all students, or share a selected student's screen with the class.

Direct Messaging

Communicate privately with individual students or send broadcast messages to the entire class.

File Transfer

Easily distribute documents, assignments, and resources to student devices with a single click.

Assess

Quick Quizzes

Launch instant polls and multiple-choice questions to gauge student comprehension immediately.

Voting

Gather rapid feedback or conduct class votes on topics to encourage active participation.

Reporting

Generate detailed reports on student activity, quiz results, and overall engagement metrics.
