

SD PREMIER

PRODUCTION **EVOLVED**

What We Offer

SD Premier is a production company that specializes in high quality laser shows. We focus on creating an unforgettable atmosphere in each event. We've teamed up with the industry's best to bring music fans a truly one of a kind experience.

AFFORDABILITY

We strive to offer the best rates on rentals and laser sales while still providing you with the **highest quality** laser shows the industry has to offer.

LASER ARTISTS

Our operators have experience working alongside the **top DJs and artists** from around the world. Each laser show is extremely unique, and designed around the artist.

SAFETY

Our laser shows are performed by **trained professionals**. We like to provide an amazing show while ensuring clients that safety is a top priority at all our events.

Who We Work With

In the past three years, **SD Premier** has worked with more than **70 artists** from over **22 countries** around the world.

Why Lasers?

"It's about exciting crowds with **visual effects** that move faster than any other light form. Today's laser displays are creating visions that others only dream of." - ILDA (*International Laser Display Assoc.*)

Lasers have the most vivid saturated color palette available and can produce over **one million** colors!

Lasers have the ability to reach out in **three dimensions**, allowing fans to see the pulse of the music.

Lasers create an **emotional link** between the artist and audience, offering a visceral experience.

Where We Work

We are currently working throughout the **United States** at nightclubs, concert halls and music festivals. We cater to all size events and our team will create a laser show specific to your venue.
