CAPABILITY STATEMENT

Aquila Technologies, Inc. is a Veteran Owned Small Business with headquarters in Chula Vista, California. Aquila Technologies provides Systems Engineering, Installation and Technical Support for the ISNS and CANES network systems onboard US Navy ships. Aquila Technologies harnesses the capability to provide accurate costs and on time delivery through experience and knowledge of the ISNS and CANES network systems. This knowledge and experience translates into the ability to handle any requests for network and systems related to engineering, installation and support within or outside of the Department of Defense.
