

## The Guarantee

Professional Utility Services, Inc. is a leading competitor in the utility operations industry and has achieved this status by maintaining the quality of work and relationships that few companies can offer. Whether you are a District that is currently operated by an outside contract company or a District entertaining the concept, Professional Utility Services, Inc. would be delighted to present a detailed quote for operations and services. Please contact our office and a representative will discuss the services that are currently available in your area.

## About Our Company

Professional Utility Services, Inc. was incorporated in the state of Texas in 1989 and is a leading competitor in the water and wastewater operations industry. We are a "full service" operations company that handles all aspects of operations in the water/wastewater industry. All personnel employed by Professional Utility Services, Inc. are licensed by the TCEQ in water and wastewater operations and obtain the proper training needed to successfully operate treatment plants to their maximum capability. We are certified to operate surface water, ground water, and wastewater treatment facilities.

Here at Professional Utility Services, Inc. we feel that it is important to provide the highest caliber of services available to the Districts in which we operate. We offer the ability to tailor our services based on the current needs of the District.

## Services Offered

- Wastewater Operations
