CUTTING OUT THE FATTY COMMISSIONS

FREE 1 HOUR CONSULTATION

No selling, just transparent guidance on the in's and out's of property investing along with current hot spots and an analysis of your investment property portfolio potential.

Speak to our investment specialist today and find out how you could potentially use your equity to build a positively geared investment portfolio without spending your own money.

Fit Property Investments will not sell you property, only provide transparent guidance so ultimately you can make an informed decision.

It is correct nothing is for free, however, unlike most property investment advisers the only payment/commission Fit Property Investments receives is that paid from the bank through brokering the loan on your investment property (should you choose to purchase a property and allow us to broker your loan).

WARNING

Beware of typical 'Free' investment seminars where you are often guided down a path to overpriced, commission packed, apartments or house and land packages.
