

## Logo Design for The Chalice:

I am looking for a new logo for my spiritual practice, where I teach metaphysical courses inspired by the Angelic Realm. The current logo is half a chalice with one angel wing. The new logo should be a complete chalice with 2 angel wings, and stylised (graceful lines rather than too much detail), yet chalice & wings should still be recognisable. The full color version of the logo should have violet for the wings and gold for the chalice. I'd like one version without, and one version with the tagline "The Chalice, Inspired by angels".
