Revolutionizing Waterproofing

TRITOPRIME + TRITOSEAL TRITOBORD and more...  
**TRITOTHERM** Acrylic and ceramic-based thermal insulating coating  
**TRITROWEL** High viscosity, water-based patch and flashing compound  
**TRITOFLEX** Instant-setting liquid rubber membrane, water-based and environmentally safe

From start to finish, the Triton family of products deliver waterproofing results that are nothing short of extraordinary.

Triton was built upon a foundation of over 175 years of combined experience in the design and analysis of roofing and waterproofing systems across 6 continents. Because of this, we have an in-depth understanding of the industry and are familiar with all types of materials and practices. We started Triton out of the belief and confidence our liquid-applied technologies are the best solution for building owners and managers seeking cost-saving solutions with restoring or replacing existing roofs. But our solutions go beyond the roof and cover the entire building envelope.

At Triton, people come first. We put our customers at the forefront, invest in our communities, and treat our global team like family. We not only take care of people, but take care of our environment through developing green, eco-friendly, and sustainable products and methods.

We're confident in our great products and common-sense approaches to solving problems. We're even more confident in our team of great people.
