

Solid Dish is a “**Green-Formulated**” machine dishwashing detergent that provides excellent cleaning performance while being safer to the user and the environment. Cuts food soils and grease equal or better than traditional solid detergents without the use of phosphates, alkali hydroxides, NTA, EDTA, nonylphenols or other toxic or environmentally unsafe ingredients. Very effective on greasy pots, pans, dishes, glassware, silverware and cooking utensils. Ideal for use in high or low temp dishmachines. Fortified with special detergent builders for great results in accounts with soft or medium hardness water. Safe on aluminum, silver plate, tin, pewter, galvanized or other non-ferrous metals. Solid form minimizes contact.

Directions for Use

This product is designed to be dispensed with equipment installed and/or approved by your Service Representative. Remove cap and invert bottle on proper solid bowl dispenser. Consult your Representative for information on equipment setup, usage level and cleaning procedures. For best results, use with hot water. **Not for manual dish washing or presoaking.**
