BUILD • PUTT • GIVE
Food and Scholarship Drive

5000 POUNDS!!

The results are in....

*The 1st Annual Peters and Yaffee - Build * Putt * Give - Food and Scholarship Drive collected **5000 pounds** of food and donations for The Nourishment Network! To put this number into perspective, it is the equivalent of feeding **a family of 4 for almost an entire year!** That is incredible and we literally could not have made it happen without the kindness, good nature, generosity, and hard work of you; the event's sponsors and participants.*

Thank you for making this first year such a tremendous success. We look forward to an even bigger event, more of your hole creativity, and even more food next year! Special thanks to all the sponsors (left) and "19th Hole" sponsors (below). Finally, thank you to the Sheraton of Jacksonville, The Nourishment Network, and all the UNF Students that helped make this event amazing.

*-Brett Manzie
