SNORER[®]_X

Thermanl-Fit™ - Custom Molded

A custom impression assures you of maximum comfort and the ability to sleep through the night. Medical professionals demand a custom fit to prevent tooth movement over time.

Micro-Fit™ Custom Adjustment

One size shoe does not fit everyone; neither does an oral appliance. Patented micro adjustment guarantees a good night's rest. Future adjustments can easily be made to dial in the optimal comfort setting for you.

Dental Lab Quality

Premium Medical grade copolymers assure you of a **Best-in-Class** oral appliance that delivers on its promise to stop your snoring.

No Moving Parts or Hardware

There are no small parts to accidentally swallow or metal hardware to chip teeth. Rest assured the patented safety design meets and exceeds Medicare design standards.

Durable

Premium dental lab design delivers long-lasting performance.

Full Value

SnoreRx delivers a superior, patented dental lab quality design and performance that is guaranteed to give you the best night's rest, free of snoring.
