

Need a tee shirt design for an Oyster

Comments:

Create a basic image/template of an oyster which can then be used in multiple, single-color images on a variety of complementary colored backgrounds.

The design should be iconic, inviting and fun!

The included photo is meant to represent the essential idea, but if you can come up with something more representative of an oyster as an image, please create away

In text, under the oyster image should read "Urbana" in a font which matches the style of the image.
