

### **Engine Up Front Label Elements:**

Smith Lubricants Logo (LOGO.eps)

Engine Up (This is the product name, should be large and prominent)

Picture (Engine Up.jpg)

(Use as many of the following product highlights you feel suitable for your design)

Protects engine components

Provides cold-start lubrication

Smoother running engine

Suitable for Diesel, Petrol and LPG engines

Cleans and removes carbon and sludge

Reduces friction and engine wear

5 Litres (This is the product size, should be clearly visible on the label)

### **Engine Up Rear Label Elements:**

Engine Up provides superior performance and protection even under extreme conditions with its unique oil structure to impregnate metal. It removes carbon and sludge buildup. Will not void warranties and contains no solids. Compatible with mineral and synthetic engine oils.

### **Directions for use:**

Add Engine Up to your engine's oil at 5% of your refill oil capacity 1,500-2,000km (15-20 hours running) before next oil & filter change. Continue to add Engine Up at 5% of oil capacity after each oil change.

### **Safety Directions:**

Avoid contact with skin. For advice, contact a Poisons Information Centre (Australia Ph. 13 11 26). This material and its container must be disposed of as hazardous waste. Avoid release to the environment.
