The course is divided into Two (2) main parts:

Part One: **ReverseSpeech** Investigator

Part One of the course is entitled ReverseSpeech Investigator. Currently this class is taught on line, one class every two weeks.

In addition to class time there is also homework to be done. How long this takes is up to you. Some students get through homework with only 2-3 hours of work a week. However most students find they need to spend 10-15 hours a week on homework and other studies to become proficient at ReverseSpeech.

The investigator course covers the basic theories of ReverseSpeech and the first analysis skills the new student needs to know to find and interpret genuine speech reversals. Course topics are:

- ReverseSpeech theory and speech complementarity
- The history of ReverseSpeech
- How to recognise a genuine speech reversal
- The seven reversal check points
- The grammar and structure of ReverseSpeech
- ReverseSpeech in children
- How to spot deception and find hidden information

Part Two: **ReverseSpeech** Investigator

Part Two of the course is entitled ReverseSpeech Analyst. It is also taught on line, one class every 2 weeks. This course covers metaphors, detailed prompting techniques and comprehensive reversal analysis. It also covers the very first steps in changing metaphors and some basic marketing techniques to build your own business. Course topics are:

- ReverseSpeech metaphors
- ReverseSpeech and the Soul
- The three levels of ReverseSpeech
- Interpreting human behaviour and the workings of the unconscious mind
- Body language and other unconscious means of expression
- How to prompt for specific information in reverse
- Rapport building
- ReverseSpeech clusters
- Building a ReverseSpeech practice
- By the end of Part Two of the course, or 6 months

in training in total (Parts 1 & 2), the newly certified Analyst is equipped to establish their own business in ReverseSpeech

In addition to learning the techniques of ReverseSpeech, training is also a deeply personal experience of self discovery. Many students will come face to face with themselves as they see their own reversals in class and their private studies. This is an important phase of the learning process because in order to help others explore themselves, one must first of all have walked the same path. One past student of ReverseSpeech described training as taking the path of a Jedi Warrior!
This is all a normal part of learning how to be proficient in this new field.

Plus! The Reverse Speech Professional Software is Included:

About *ReverseSpeech Pro*

Reverse Speech Pro is software for editing audio or sound files on your computer with specialized functions designed into the software to make analyzing Reverse Speech easier and faster than ever before, while promoting standardization within the discipline.
