

Q INSPECTIONS. It provides Inspection, Certification, and verification services to its client in Construction industry. It Checked and approved that the contractor has completed the job in accordance with clients requirement and project standard. It then generate and issue reports based on the what they checked and inspected and provide reports to its client.

I need a good logo that best and boldly represent the company. Since our job is mostly checking and inspecting, I would like to see a combination of the company name Q INSPECTIONS and the Check symbol. A simple but a very good combination of text, color and symbol that will give a good representation to the company. The logo will be used on reports (40x40 mm approx) and might be printed on vehicle. A square or rectangle lay out is much preferred. In Black and White background please.

1. Color Combination

Color combination is Gray and Orange as above. Plain Gray is really nice. Options of metallic (as TMI sample) is considered whichever looks great on the logo.

2. Font Type

The word 'NOKIA' is displayed in a bold, blue, sans-serif font. The letters are thick and have a slight shadow effect.

The font is very nice. Neat and clean and very define. Text width, thickness, and height is well balance. Font of the same type is really good but open for other ideas. A unique Q might be good.

SAMPLE A.

The logo was for a company obviously involved in audit and checking. The check symbol and the company name was a very simple and nice combination that best represent the business of the company.

2. Sample B

Company is about Medical Check. Logo has a plus + sign symbolize medical engrave in a check

3. Sample C

The logo was for Structural Engineers Company. It was Logo well presented. The company name BBK (very neat and defined) and Gray Arch which represent steel Structure that clearly defines the business of the company.
