

artCLOUD

What?

artCLOUD is one of the only truly web-based gallery management software systems currently available for galleries, artists, consultants and collectors. on a basic level, it allows you to manage your artists, art inventory, clients, and invoices in one clean interface that is highly integrated. This integration allows for searchability, recordability and exportation of information, all increasing efficiency. some of the features include pages dedicated to creating art inventory with images, new modules for clients with activity and interest logs, and invoices/approvals with functionality alerting you when payments are due or follow-up contact needs to be made. also, as a web-based system, artCLOUD can be viewed on your mobile phone/tablet device. artCLOUD is the easiest way to manage your art data on the cloud.

Where?

artCLOUD is hosted on our state-of-the art secure server that is available from anywhere via our website. to access your account, simply login through our webpage using your customized username and password. you can connect anytime/anywhere from your Mac, PC, phone or tablet device with a simple internet connection.

Why?

artCLOUD is attractive, accessible, and affordable. we have developed a system with a clean design that is easy to use, can be accessed from anywhere in the world anytime day or night, and is less expensive than any other similar product currently on the market. artCLOUD's sleek interface will be appreciated by your clients and artists. the simplified and pared down platform will allow you to quickly and efficiently add inventory, look up clients' past purchases, and export reports for sales. and, the attractive price point is just an added bonus.

artCLOUD comes with free support, free upgrades, and an innovative virtual sales manager that will help to grow your business, all for a fixed monthly fee.

How much?

artCLOUD is one of the most affordable gallery database options on the marketplace with an initial activation fee of **\$500** and a modest monthly maintenance fee of **\$100**. that's it, and with that is included system set-up if using our import template, support, hosting, back-up and any upgrades to improve the system.

Who?

we are a team consisting of a gallery owner and a software programmer who were both frustrated with the lack of web-based gallery software available on the market at an affordable price point. with 20+ years of combined experience in the art and technology fields, we have introduced a product with a clean design (important for gallerists) that is easy to use (important for techies). we hope that you will [try our 60-day free trial](#) and let us know if you feel the same way too.
