WHAT IS HOT ADS?

Hot Ads is an exciting new service offered to the San Antonio business community to increase consumer-driven sales!

HOT ADS IS PERFECT FOR:

1. Event-driven marketing such as sales, grand openings, new products

2. New-customer marketing. Coupled with a compelling message or offer, Hot Ads can reach the people most likely to visit your business.

3. Coupons. Door-direct marketing is a superior product in which to get coupons to new and existing customers.

WHY HOT ADS?

Door hangers offer advantages other advertising offerings do not:

1. Message Impression: Why place your ad in a position to compete with other advertisements such as shared-mail, newspapers, radio when you can claim sole ownership (and eyeballs) of your targets attention?

2. Saturation of market. Instead of paying to reach a small percentage of your potential customers, Hot Ads can reach most your customers direct to their homes.

3. Targeted to reach your most likely customers. Consumers mostly do their shopping within a 3-5 mile radius of their home: If your business is in the NE part of the city, why place your ad in mediums that waste your $'s advertising over the whole market? Hot Ads allows you to focus your message to those most likely to purchase.
