

Stealth and strength. A mystery to explain.
How can something born of such raw power
be so nuanced? A hearty Nicaraguan puro
wrapped in the oily, unfermented Habano
Oscuro leaf. A full body through and through,
somehow cloaked in creaminess. A coiled tail
and clawed foot pay homage to its namesake
... the CHUPA CABRA.

IT RISES FROM THE EARTH.
BUT IT'S NOT OF THIS WORLD.
