

SEIZMIK VERSATILE WINDSHIELDS

- Constructed of .220" optical-grade acrylic
- Quikfit Tightening System straps
 - Mounts easily and can be quickly configured without tools
 - Quikfit Straps mean no lost hardware
- High performance, 2-piece windshield design allows the rider to configure the windshield based on weather conditions or driver preference
- 3 configurations: full, upper, and lower
 - Full windshield for full protection of the elements
 - Upper windshield pressurizes the cab, keeping out dust while allowing air into the cab
 - Lower windshield forces the air down, out of the riders face
- Minimizes airflow into occupants face in all 3 configurations
- Works with nearly all soft and hard tops and all Seizmik ® accessories
- Trailerable to 65 mph

SEIZMIK
