ATTENTION BUSINESS OWNERS. A local South Australian waste and recycling company offering YOU reliability, cost effectiveness and 5 star customer service.

Five star customer service is what sets Signal Waste apart from our competition.

Signal Waste prides themselves in providing their clients with open communication and dedication, quality and satisfaction on every service provided. This means NO call centres and NO interstate sales or accounts management. The Bin Boys as they are known in the industry have a 'can do' attitude and instil old fashioned work ethics throughout their fully trained team. Which means, from the time the friendly staff receive your call, to the handshake and introduction of the sales department, to the time the bins are delivered and serviced by Signal's reliable drivers, every small detail is dealt with and accounted for. This is backed up by Your five star customer service guarantee.

Signal Waste and Recycling which was established in 1989, is a fully licensed, locally family owned and run business headed by Allen and Micheal Bolderoff. The Boys have been in the waste industry for over 25 years providing a one stop shop to over 1000 customers from commercial, industrial, local, state and government sectors.

The company is at the forefront of technology and is the innovator and trend setter of the whole South Australian waste and recycling industry. Signal's front lift industrial waste division was the first to divert waste from landfill through waste to energy in South Australia.

We save you time by having one point of call to handle all of your waste and recycling needs. We save you money by diverting as much of your waste from landfill as we possibly can.

Here is what some of our customers have said about us -

We changed to Signal, which is our local SA provider, from a multinational company because Signal is able to divert our waste from landfill to a resource recovery centre. Over a year we will save over \$4000.00. We would highly recommend Signal to all other businesses.
David Richardson: Auction Blue.

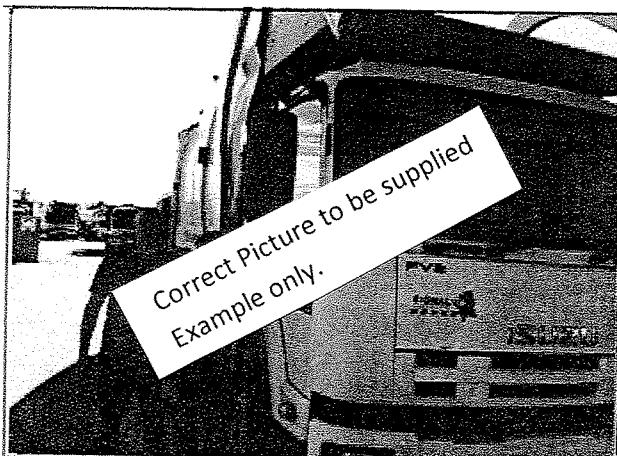

Our main aim was to support local business. That's why we have Signal Waste who are a SA owned family business take care of our waste and recycling needs. Supporting local business is what we want to do.
James: Marcellina pizza bar at Parafield

We have used Signal Waste as a service provider for all our waste and recycling for over 10 years. As our business has grown, Signal has adapted their services and products according to our needs. We recently renewed our contract with Signal, easiest business decision we have ever made. We will gratefully recommend Signal to others.
Adrianna Agostino: Yummysnack.
