# THE SUPERDRAFT DIFFERENCE

## EXPERIENCED LOCAL DESIGNERS

Superdraft only employs experienced local architects, designers, draftsman and engineers with a minimum of 10 years of local experience and we guarantee quality drawings and continue drafting until council approval is achieved. This is our guarantee!

## ONE-STOP-SHOP

Superdraft is a one stop shop offering everything you need including Architectural Design, Drafting, Engineering, Energy Efficiency Reports and 3D Images. We will help organise and co-ordinate all consultants required for your project making it a much easier and hassle free process.

## WE CAN PROVIDE A FREE QUOTE FOR YOUR CONSTRUCTION

Superdraft can provide you with a free quote to carry out the construction of your project. Have peace of mind knowing that your builder is associated with the same reliable company that produced your plans. This enables a hassle free and cost effective transition from drawing board to construction.

## NEED HELP FINANCING YOUR PROJECT?

We can provide second tier finance to all of our clients. If you are unable to get your project off the ground straight away due to the banks not providing you enough finance, we can assist in providing finance to fund the remainder of your project. We have flexible finance options available for all clients.

## BUILDING COST ESTIMATION

Unlike most architecture and drafting companies that only get a builder quote once you have council approval, Superdraft can offer a Building Cost Estimate at the preliminary design stage, giving you peace of mind before wasting your money and time on getting approval on a design you can not afford.

## DO NOT RISK YOUR PROJECT WITH AN UN-INSURED 'BUDGET' DRAFTSMAN

Superdraft carries all of the required insurances as required by Australian Legislation. You are investing thousands of dollars into your project...do not risk it with a backyard company that is not insured or licensed to carry out your work.
