

## Advanced Placement Courses

# Go AP and go to the head of the class...college class that is...

Keisha:

**Hey, Welcome to My School, Florida Virtual School.** To be accepted into a good college, I needed to have a solid senior schedule, no easy courses for me. I wanted to take AP courses, but my school didn't offer AP. FLVS to the rescue. Now I can choose from many AP courses and can take them...any time, any place, any path, any pace. It's working so well, I told my friend Anthony about it.

**"For college students who took at least one AP course in high school, 59% completed... a Bachelors degree...compared to a 33% completion rate for students who took no AP courses."** USDOE

Anthony:

**I owe Samantha big time.** As an athlete, I have time demands that make getting all my classes in during a typical day simply impossible. Take that and add on the fact that I also have a part time job –just the way it is. The good news is FLVS allows me to still have my dreams, be an athlete and get into to a great college. With FLVS, I can fit my AP courses into my schedule. Yes, I do my AP classwork for FLVS at all hours of the night and morning, but that is okay. It is working for me. I told my friend, Ted, who helps me with my AP Calculus.

Ted:

**I'm competitive –ask Anthony.** My style is faster than most school classes, plus I do best when I can study independently. FLVS let's me go at my own pace; this is perfect for my style of learning. I am taking AP Computer Science, AP American History and AP Calculus. I love learning on my own time and at my own speed. ## that is...

The AP\* program provides college courses to you while you're still in high school. If you receive a qualifying grade on AP exams that are given in May, you may receive college credits. You can earn high school credit and college credit at the same time. Most importantly, AP courses prepare you for the rigor of college and of the workplace.

### AP Courses are Real and Successful

To Qualify... means you earn college credit. You'll hear that term that a lot. As you look into your high school education options, know that students taking AP courses have higher Graduation completion rates.

### What Kids Say...

*"I learned more in my FLVS AP literature and composition class than I did in all my other English classes combined."*

**Stephen**

*"I ordered my AP exam today. I am the only one at my school to be taking an AP exam due to an online course. Everyone keeps asking me about FLVS; I feel like a celebrity."*

**Sheila**

*"I am so glad that Florida allows us to have such an innovative way to learn."*
