Broken Stud Removal Service

Stud extract are specialists in the removal of broken DAF brake discs or broken disc fixing bolts. Bring your hub to us and we always aim to have it ready for you in an hour. Using our specialist techniques we can remove broken bolts without the use of any heat or drilling.

Bearing Re-Sealing Service

Why replace your bearing when the only problem is a leaking oil seal. We inspect, re-seal and re-grease commercial vehicle cassette wheel bearings. All bearings we inspect and re-seal are covered by our 12 month unlimited mileage warranty*

Wheel Bearing Fitting Service

We know that fitting bearings can sometimes be a tricky job and can result in costly breakdown expenses if fitted incorrectly, so why not let one of our experienced technicians take care of it for you. Bring your hub to us and we aim to have it ready within an hour.

Brake Disc Fitting Service

Here at stud extract we offer very competitive prices on all truck, bus, coach & trailer brake discs, whatever your preference from original equipment to high quality aftermarket. We can supply your hub complete with the disc fitted helping keep your downtime to an absolute minimum.

FAG

Friedrich Fischer began producing wheel bearings in 1883
Trust the **ORIGINAL**
manufacturer

All FAG products also
come with an unbiased
100,000 mile / 2
Year warranty*

Repair Insert Unit

The RIU is a pre-assembled and
lubricated
sealed wheel bearing replacement
solution

Insert Unit

Simple design and long
faultless service life

Sealed Insert Unit

Easy and fast replacement
thanks to
bearing unit assembly

Tapered Roller Bearing

High load bearing capacity,
compact installation space,
good cornering behaviour

Axle Hub Unit

Rugged composite design, made
from Cast Iron
and roller bearing steel

* conditions apply
