ECHO Locum Tenens is based out of Grapevine, TX and is an affiliate of Sound Physicians.

ECHO was established in 2011 to help staff Sound Physicians' 100+ hospitalist programs throughout the country. We have proven that we can staff a high volume of physicians at relatively low costs, giving us the ability to expand our services to all hospitals, physician groups, and clinics nationwide.

Our standards are high for the physicians we represent and the people who work with us. ECHO was founded and led by physicians with passion for quality, service, teamwork, innovation and integrity. The ECHO commitment is to get physicians working at your hospital quickly and ensure patients receive high-quality, competent care ***when and where*** you need it.

Like the gnome, we're always there, ready to help and always smiling!
