

## Directory Landing Page (for when visitors click the View All Categories)

The below is a sample and not using the final images, categories, etc.  
When a header category is selected, the sub categories are displayed.

Scrolling search bar as the user scrolls down.

It's possible to flash up this page using icons or nice looking button boxes?

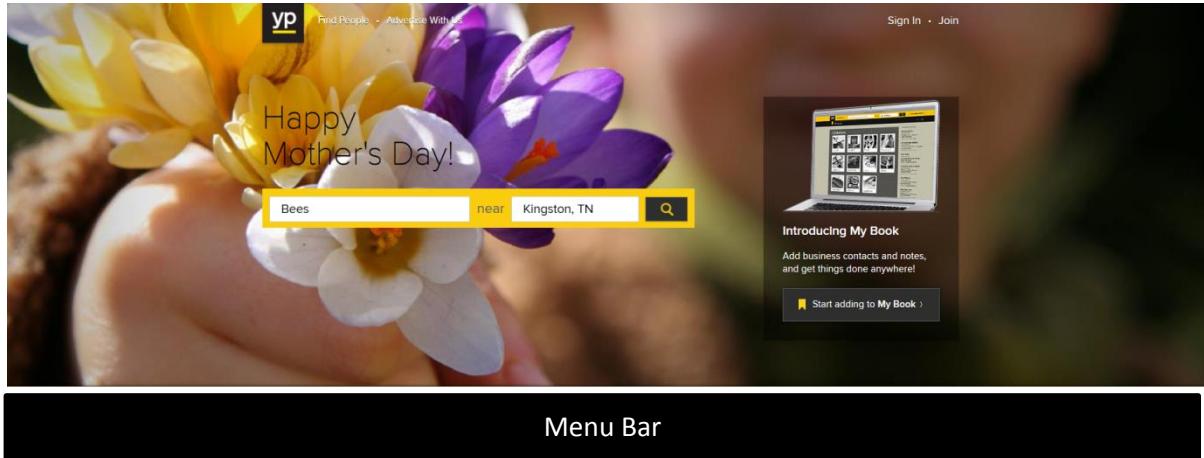

### Browse by Category

FOOTER

**Subcategory Page: When one a header category is selected, then it opens up to the subcategories listed.**

We use to have icons as this was for each major category. For the sub categories I don't think we can find icons to link up with this. So perhaps we just simply list.

Menu Bar
