Ok. We do not want to add many sentences onto this page. The most you can do is to put the following slogans of Aloha and CoCobliss which are “Transform yourself to a state of complete relaxation and Engineered for the last stretch,” respectively. (see the picture on the right hand side)>>>

Page 6 back cover

On the world map image, we do not want to have our logo all over the map. This can be misleading that we have different branches all over the world.

We would like the logo to be on Thailand ONLY and have many arrows extended to different regions.
