

IS ADMINISTRATION EATING UP YOUR VALUABLE TIME?

Admin can consume a large amount of time for doctors working in private practice. From generating accounts to chasing up bad debts, from sitting on hold with health funds, or trawling through remittance advices to getting accreditation papers and submitting provider number applications properly – we're sure you would prefer to focus on being a doctor rather than worrying about paperwork and piles of admin. Doctors Accounts Services is here to help – contact us today if you're ready to remove the burden of admin.
