SEND US FILES

Send Us Files

RGS Pushes technology forward to better service its customers with Send Us Files (SUF) application. This Electronic File Submission software enables users to send Electronic Files from their desktops directly to our servers, making the most of their valuable time.

- **One Click Access** – No hassle trying to find the link! Use our friendly shortcut installed directly to your desktop.
- **Let the System Guide You** – Save time clicking from site to site and typing in your contact information. Let the user friendly interface guide you step-by-step, inputting your contact information for you.
- **Watch the Progress** – Quickly upload files with no file size or type restrictions.
- **Saving Time** – Make the most of your valuable time as you send your order directly from your desktop to our servers – No more calling/waiting for a pick-up!
- **Results** – Take advantage of quicker turnaround times, better meeting your crucial deadlines!
- **To access the Send Us Files application**, please visit our website at www.rgsgroup.net and click on “Send Us Files”.

REPROCONNECT ONLINE PLANROOM

ReproConnect Online Planroom

ReproConnect streamlines your Document Management needs with added features such as “Invitation to Bid (ITB)” and “Hosted Planroom”. Easy online registration, viewing, downloading and ordering.

- **Public & Private Projects** – Post your projects to ReproConnect. With a Private project, you control the access by issuing a Jobkey to authorized users.
- **Easy Online Viewing** – Users can easily view, order and download files from their web browser.
- **Planholder Notifications** – We can send out email notifications to all planholders on a project notifying them of revisions
- **Invitation To Bid Module (ITB)** – Simplify the bid process and automate redundant tasks.
- **Private Database** – Categorize your private database of sub-contractors by trade.
- **Hosted Website** – Brand the planroom with your company logo and colors.
