# GREEN BUILDING

DIRECTORY • RESOURCE • NETWORK

Rate It Green is a green building directory, network and resource, where individuals and organizations connect and find green building products, services and information. Through an inclusive directory, client reviews and testimonials, and candid discussions, Rate It Green helps green builders expand their networks, and helps fuel industry growth for builders, building occupants, and the environment.

### FIND

Search Rate It Green's Directory for green building products and services. Find out what it's like to work with companies through client reviews and testimonials, before making purchasing decisions.

### PROMOTE

Showcase your products and services with Rate It Green's FREE Basic or Premium Directory Listings. Build credibility and visibility with both existing and new clients by encouraging client reviews and testimonials, and by participating in the Rate It Green network.

### CONNECT

Learn and build relationships, by sharing your expertise and asking questions on the Rate It Green network. Create a FREE Member Profile, jump into a discussion or group, and review companies you have worked with. Rate It Green welcomes all green builders, from beginners to seasoned experts, and for both residential and commercial building projects.
