

### ❖ Memoirs by You ❖

**If you were alive in 100 years**, what would you share with your descendants?

Now you have a vehicle to help you immortalize your thoughts for the future...specifically for those who will want to know!

We are not all presidents of countries or CEO's of fortune 500 companies! But "every life legacy is a gift to be treasured by the next generation."

Does your family host generations of soldiers, doctors, farmers, scientists, mechanics, entrepreneurs, writers, politicians, contractors, pastors, artisans, athletes, musicians, etc.? Generational patterns can often emerge when writing your story that will interest the next generation.

## "When a Genealogy Doesn't Say Enough"

A genealogy, while very relevant, doesn't offer the personal story of the names we find. A biography can place a deeper relevance on the face for future descendants. Every life is a legacy to pass forward and we at Memoirs by You believe everyone should chronicle their life journey in writing. This commitment allows you to be remembered for who you truly are as a person.

Think about it....Do you know the triumphs and tribulations of your ancestors? Do you wish you did? Well, so will those falling into your personal family tree.
