

1. Cockatoo

Please limit colours to yellow, white, grey and black (no more than 4 colours). We need the image to be outlined in black, as it needs to stand out against a white background.

We want cute, cartoon-style images very much like the side-view image below (although obviously this is a copyright image so the design needs to be original). We require 2 images of the same bird against white backgrounds– see below for details.

Image 1: A side-view image like this, with the yellow crest on its head sticking up:

Image 2: A flying image like this so you can see the yellow underneath the wings:

2. Koala

Please no more than 4 colours (you'll really only need various greys and perhaps black and white)

We want cute, cartoon-style images very much like the front-view image below (although obviously this is a copyright image so the design needs to be original). We require 2 images of the same koala against white backgrounds – see below for details.

Image 1: Front view, koala sitting with paws in front (no pink cheeks)

Image 2: Side view, koala walking (similar to this image)

3. Baby kangaroo (joey)

Please limit colours to browns, white, and black (no more than 4 colours).

We want cute, cartoon-style images.

We require 2 images of the same joey against white backgrounds – see below for details. No front pouch on the joey please.

Image 1: Joey standing, with ears up and head front facing (as though looking at the camera), similar to this image (especially the positioning of the arms/paws):

Image 2: Joey jumping, side view of body and head, similar to this image:

stock.com · 179582945

These photos show a truer idea of the joey's face and body, and also the colours we'd prefer (light grey-browns)

4. Kookaburra

Please no more than 5 colours.

We want cute, cartoon-style images.

We require 2 images of the same kookaburra against white backgrounds – see below for details. No branches please, just the bird.

Image 1: Side view of bird with head also facing the side, similar to these images:

Image 2: A more front-on view of the bird (but with blue wings still visible), with bird laughing (similar to cartoon image below):

The colours here (especially the wings and tail) are what we'd like to see captured in the images:

5. Bilby

Please no more than 5 colours.

We want cute, cartoon-style images.

We require 2 images of the same bilby against white backgrounds – see below for details.

Image 1: Side view of bilby walking, with head faced more towards the front. A combination of these 2 photos would be ideal:

Image 2: Bilby standing on hind legs, with face showing side profile (only one eye visible please). Here are two examples of bilbies standing:

The colours of the bilbies in these two images below is what we're looking for:
