

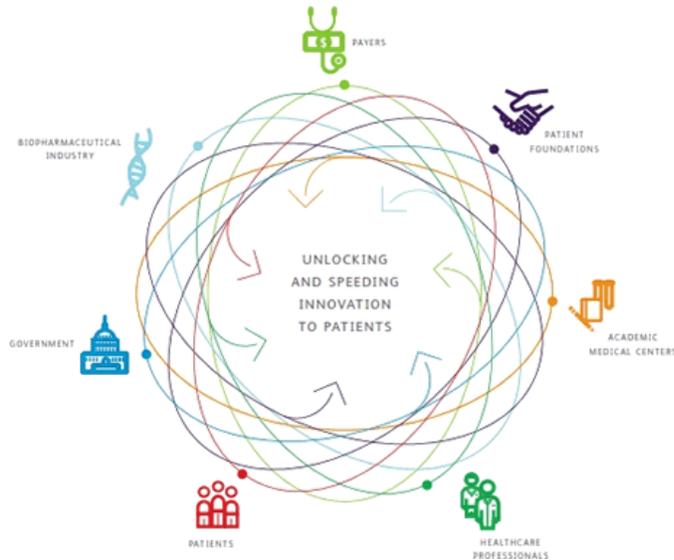

Graph 1 –

Create a similar (but distinctive) graph showing interdependence between these four groups:

University partners

Government agencies

Corporate partners

End users

Middle should say “unlocking and speeding innovation” in caps

Graph 2 Title - Management/Resolution by academic and industry collaborators

This graph should reflect the process

1. Understanding what each party seeks and receives from any partnership
2. Formal disclosure of personal financial or other relationships for investigators and faculty researchers involved in project
3. Review by organizational and other representatives as needed, to assess and provide recommendations for managing these relationships
4. Recommendation by independent officials on how to address any situation
5. Management/Resolution by academic parties in conjunction with their institutions, as well as management plans by industry
6. Appropriate contract mechanisms that reflect proposed workplan and management plan
