

SmartRoom Virtual Data Room with SmartLock Technology

The **ONLY** Secure Protection for Your Data From Start to Finish

By way of SmartLock, a BMC proprietary security technology, SmartRoom can provide the **only fully secure data room** in the industry.

Remotely Expire Documents

Remotely expire documents from users' desktops to ensure all data is purged after your transaction ends

Lock Down All Microsoft Office File Types

View, print and save restrictions can be placed on Excel, Word and PowerPoint files by security profile

No Administrative Rights Required

SmartLock installation can be completed easily without administrative rights

Password Protected Offline Access to Documents

Users can access files offline, all while maintaining security and reporting capabilities

For the first time ever, companies who use SmartRoom can now **feel secure that access to their sensitive data ends the moment their transaction does.**
