## IT'S PEACE OF MIND

**BushFirePro** saved Guy and Caroline Bugden's home and possessions from the devastating BEGA (NSW) fires of 2013, like so many grateful home owners before them.

Guy and Caroline had earlier been so thrilled with their **BushFirePro** investment they had encouraged their neighbours to install it too.

Tragically they declined. Then within weeks came the ravishing fires that destroyed their home.

**BushFirePro** worked a dream for Guy and Caroline. Nothing was even lightly touched.

In an obligation-**FREE** 30 minute presentation you will experience:

- A short informative video demonstrating how the patented **BushFirePro** System can save your most valuable assets and provide you peace of mind for decades of long, hot summers to come.

and you will discover:

- How you can affordably protect **YOUR** home and assets.

## PLUS—LET US REWARD YOU!

Be one of the first 10 to book and hold your obligation-**FREE** demonstration to qualify for significant, genuine saving as we are looking for local homes to use in our promotion.
