PEACE OF MIND PROPERTY RENTALS

I have started my own business to be able to give my owners the Superior Service they deserve. I will achieve this by keeping my business as a small operation. My aim is to give a consistently high service and know my owners and tenants at a more personal level. I have been in property management for nearly 9 years and have completed all stages of this profession.

I am offering my services to owners who want to make their property a lucrative investment.

My experience has taught me that well-presented homes attract good quality tenants who will maintain your investment home with a high level of care.

My aim is to find the right tenants for the right properties, so that owners can enjoy the benefits without the worries.

Currently I have approved tenants looking for their dream rental property. Please call me if you have a property that you would like to turn into a investment property.

If you have your house for sales and the market is not up to your expectations please consider the rental market.

I am always available please call to see what I can do for you.

Kind Regards

Karoline Weinand
