

## System Overview

- PLC Programmed Sensors & Door Interlocks
- Synergy 3 in 1 (Control, Video, Intercom) Touchscreen Operator Console
- Docking Stations for Multiple Work Stations
- Event Logging & Automatic Archiving
- Management Configured Alarm Assessment
- Transparent Encryption Capable
- Escort Control and Tracking
- Operator Logging and Response Tracking
- Two-Man-Rule Implementations

### Mission Statement

Design and Engineer Integrated Command and Control Security Solutions for Threat Detection, Identification and Containment for Government and Commercial Facilities.

Made in the U.S.A.

*DHS Designated Qualified  
Anti-Terrorism Technologies*

### Compliant References

- DOE 470.4 – Safeguard & Security Program Compliant
- 6 CFR Part 25 – Safety Act
- UL 752 – Standard for Bullet-Resisting Equipment
- UL 972 – Forced Entry Resistant Laminated Glazing

Isotec Security's Safety Entrances and Exit Lane Breach Control Systems (ELBC) are Designated Anti-terrorism Technologies by the Department of Homeland Security. Qualified Federal, State and Municipal agencies may purchase Isotec's standard and site specific DHS Designated Safety Entrances and Exit Lane Breach Control systems directly at [www.gsaadvantage.gov](http://www.gsaadvantage.gov), keyword search, Isotec Security.

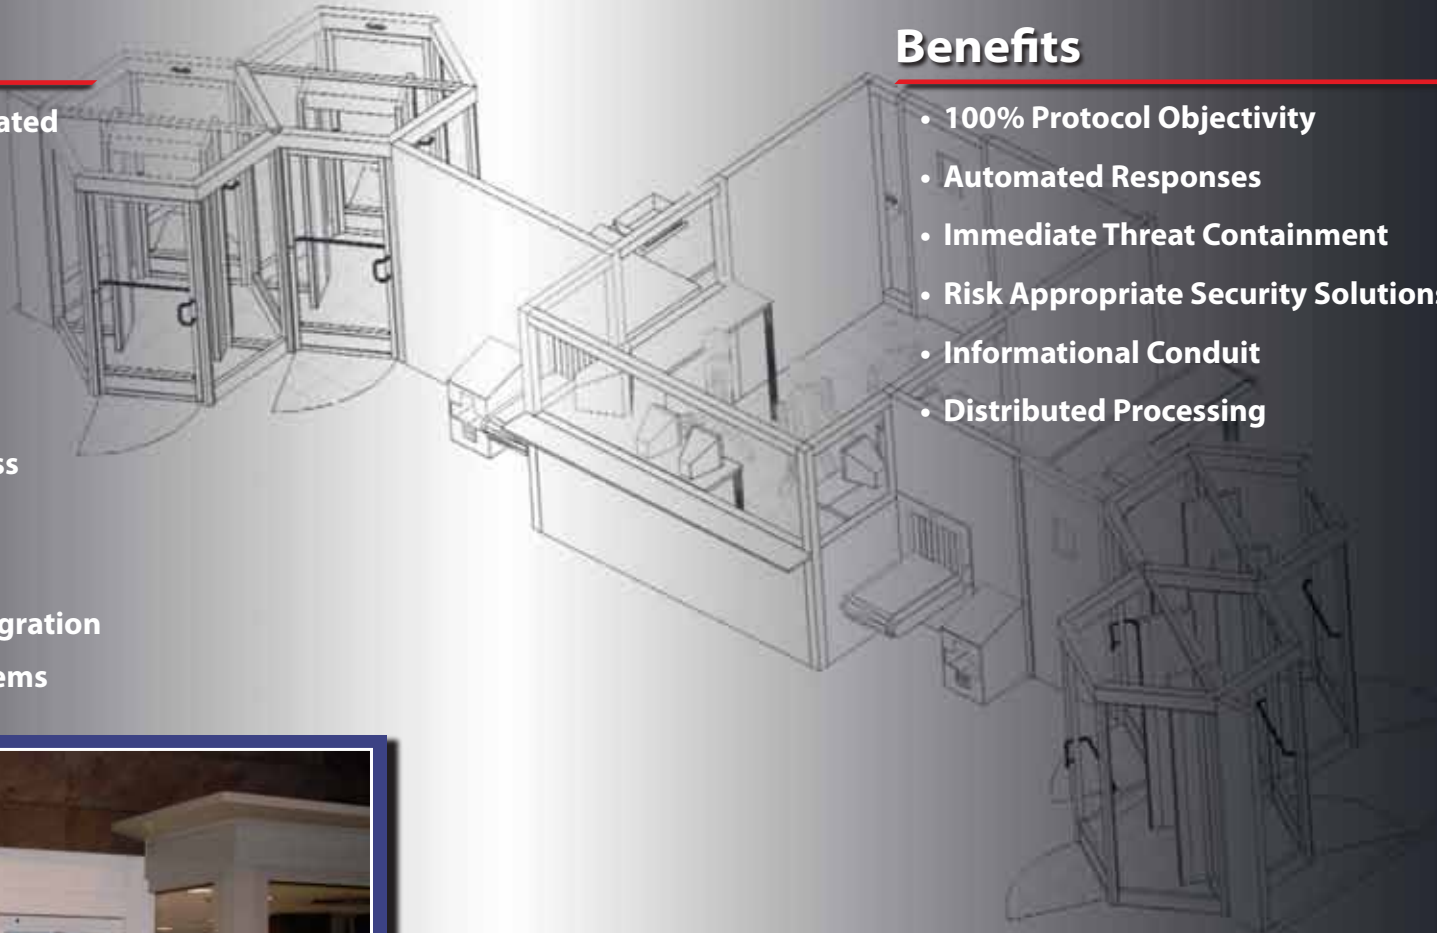

Made in the USA

# Integrated Anti-terrorism Physical Protection and Security Management

## Technologies

- Standard and Custom PLC Automated Interlock Security Doors
- Anti-tailgating Sensors (ATG)
- Exit Lane Breach Control (ELBC)
- Material Screening (MTL, SNM, XRAY, Others)
- Left Objects Detection
- UL Level I - VIII Ballistic Rated Glass
- Covert Concealed Cameras
- Voice Prompts
- Multi-Platform/Multi-Vendor Integration
- Interfaces to Card/Biometric Systems

## Benefits

- 100% Protocol Objectivity
- Automated Responses
- Immediate Threat Containment
- Risk Appropriate Security Solutions
- Informational Conduit
- Distributed Processing

*The Safest Way*
